

Energy experts unleash the legendary...

"Golden State Giveaway"

California's Most Precious Asset...

Forgotten...

Neglected...

Even Given Up for Dead...

Now Worth **\$1.26 Billion...**

Means a **WINDELL** for early investors.

In a few short weeks, one small company will have made history in California. For us, that means a chance at **100% + gains** in no time...

Inside: This American energy firm is on the verge of production, right here in the USA. Investors could see 100% gains, or more, in a matter of months...

Project Notes: For the magalog cover graphic, you're seeing a blending of a \$100 bill with a natural gas line placed inside California. The shape of the state dictated the flow of the cover copy. Highlighting "100% + gains" in yellow helped draw the reader to that portion of the text and then to the "Inside" teaser copy.

You'll get both of these reports FREE of charge when you sign up for a no-risk subscription to my *Pure Energy Report* advisory service.

Plus, you'll also receive one year of profit producing research - which includes my weekly *Pure Energy Report* and our new *Energy and Capital* e-mail service - all at the low price of just \$495 per year.

That's less than \$1.35 a day to get in on some of the best research and investments in

the red-hot energy sector.

But make no mistake, these aren't mainstream investments...you'll find them only in the pages of the *Pure Energy Report*.

The Golden State Giveaway

In a few short weeks, one small company will have made history in California. For us, that means a chance at 100% + gains in no time...

Dear Investor:

When I got off the phone with the authors and management of **Fossilith Resources (FTR: OTCBB)** I did a quick calculation.

Fossilith Resources (FTR: OTCBB)
 Web: www.fossilithresources.com
 Email: info@fossilithresources.com
 Phone: 888-662-1877

The company's natural gas reserves, which are proven, lease reserves, and its potential reserves, could be worth over a billion dollars.

Based on that, a conservative calculation puts shares at about \$25, or about six times the current level.

Is it really possible?

You bet it is.

And I'm here to tell you that Fossilith Resources could be the biggest winner of my career. But here's the key...this little company is not the focus of the bear market I've over run. And they're not wearing any hats.

As you read this, the company is in the process of drilling two natural gas wells which should be in production any day. Heck, they may already be on line.

As you'll see, the business was starting to fall, and for us, that means potentially huge gains in a few short months, because once production starts in earnest, I expect shares to blast off.

That's a saying my Father used to repeat: "I've found the hidden 1 work, the hidden 1 gain."

It was:

You see, Fossilith Resources is a brand new company, but they've got their hands on an undervalued natural gas deposit in northern California that's as good as money in the bank.

I call it the Golden State Giveaway.

The missing part is they didn't have to like a finger to discover the gas... someone else did the dirty work for them. But it's there alright.

And over the course of the next few weeks we're going to witness the beginning of a major new energy surge in California, as Fossilith Resources begins production on its property.

"\$24,000 to \$61,000 in three months!"

Dear Mike,
 This is a real story - a story about finding a great investment opportunity in a small company. I have learned a lot from you, and I am excited to see you succeed in your business.

Best thing I ever did was to read your book and your website. Getting started in investing was a real eye opener.
